- ❖ **Repairs & Replacements** - Replace all necessary broken, cracked, curled and worn roofing tiles and shingles with comparable materials.
- ❖ **Loose tile & shingles** – Be sure to blind nail when applicable when reinstalling or replacing loose or missing material. Cover all exposed felt with metal slip to prevent cracking of felt which can result in leakage.
- ❖ **Replace or caulk pipe boots** - When rubber seal on pipe boots lose elasticity due to UV rays, cracking may occur and will require replacement or caulking. Caulking should be applied in accordance with the caulking manufacturer’s written application instructions.
